Henderman walked but can suffered the fate of all other attempted pillered to fall other attempted was safe on Rusack's error. Lenard fanned.

Seventh Inning.

The series now stands one for each of the two teams. Webster winning last Saturday's contest, 6-0. The tie will be played off on some neutral bail park. Both teams seem to be very much in favor of bringing the third game to Norwich and in the event that it is decided to be played on the Academy grounds a good crowd should turn out. The past two games should be enough to arouse the baseball sport that has been shows so well in years back. The teams will be under a heavy expense and there is no reason why a zood crowd shouldn't turn out to support them.

the contest from taking place here. It was said here this afternoon that steps will be taken to prevent other boxing matches in the state on the ground that if the Fulton-Dempsey contest would have been a violation The Cubs bunched hits in the of the law, others are equally illegal.

Auto Racing-Motor Club Officials Court. Gives Rules For Avoidance of Accidents.

"Pick up," "get-away," "dash," are the most familiar terms to the every-day motorist or truck driver, accord-ing to John J. Younger, supervisor of engineering Motor Transport Division, War Department. With the demands of modern day life, motorists have been giving their entire attention to speed with no thought of how quickly a stop can be made.

Experts say that a woman driver should be able to apply the brakes on the car she is driving as effectively as a man, regardless of the strength exerted. A test recently made, showed that a truck driver exerted a pedal pressure of 400 pounds. Although no pressure of 490 pounds. Although no woman driver could exert this amount of pressure, the experts say she should be able to stop as quickly as the truck driver if the brakes are equipped with thermoid hydraulic compressed lining.
